# Les INFUSIONS 8.5 %

de Villa Noria

*The first low-alcohol wine  
by natural fermentation!*

We have developed a range of 8.5% wine "Les Infusions 8,5% Villa Noria". Unlike other products below 8.5% considered in the wine-based beverage category, we are in the wine category. In fact, our range is produced by **natural fermentation** using specific strains and yeasts.

Our range of low-alcohol wine is "**Les Infusions 8,5% de Villa Noria**" range is **ECOCERT FR-BIO-01 certified organic**.

De-alcoholization for low alcohol organic wines is forbidden in Europe so we are the only ones to have implemented and obtained organic wines naturallyorganise wines naturally low in alcohol and dryand for brut sparkling wines.

We've been doing R&D on this subject for 3 years now, and we've reintroduced native yeast strains and bacteria that have a very low alcoholic yield, unlike the yeasts currently used in the wine world.

## Why choose Les Infusions 8.5%?

Organic

Excise duty reduction
